VIRGINIA VISUALIZATION AND ANALYTICS SOLUTION (VVAAS) STUDENT ASSESSMENT SUMMARY REPORT

Dear Parent(s)/Guardian(s):

The Virginia Department of Education official VVAAS Student Assessment Summary Report included with this letter displays results for Standards of Learning (SOL) tests your student took between school year 2015-16 and school year 2021-22. This report does NOT include results from the most recent 2022-23 school year. With this report, you can learn about your student's historical SOL performance.

Your student's historical results are presented in a line graph and chart showing the state percentile for each completed SOL test. The percentile tells you where your student ranked compared to all other students in Virginia who took the same test that year. The percentile is NOT your student's SOL score for the test. The report does NOT provide your student's SOL score.

-- The line graph can show you trends in your student's state percentile by subject area. Viewing several years of test history along with year-end grades can help determine subject areas of strength or areas where additional support may be needed.

--The chart gives your student's test percentile and performance level for each SOL test under the grade level heading. The performance level indicates whether your student's test score was passing or failing.

Dear Parent/Guardian:

The Virginia Department of Education, along with your local school division, is pleased to provide a new individualized report of your child's SOL testing history called the Student Assessment Summary report. This report is part of the new VVAAS (Virginia's Visualization and Analytics Solution) system that provides information to further support students. With this report, you can learn about your child's SOL performance over time and any patterns that may be present in your child's testing history. This report will also allow you to see how your child's performance compares to other students in the Commonwealth who took the same test.

While the Student Assessment Summary report was created as an easy-to-understand document, the VDOE has prepared this parent resources webpage <https://www.doe.virginia.gov/VVAAS-Parent-Resources>.

Understanding your child's unique historical performance on state tests can help you identify what additional supports may be needed or where acceleration may be possible. This report, along with year-end grades and the 2023 SOL test results that you have or will soon receive from your child's school are key pieces of information when partnering with your child's teacher and school.

Every school in Virginia and the Virginia Department of Education know how important a strong relationship is with parents and hope the Student Assessment Summary report will provide a clear picture of how the 1.25 million students in the Commonwealth are performing. If your child's report shows areas of deficiency or concern, you are encouraged to reach out to your child's school to further discuss the data and work together to develop a plan of action for improvement.

The Virginia Department of Education has also established \$30 million in Learning Acceleration Grants that parents can access to assist their child. The learning grants will provide up to \$1,500 or \$3,000 based on income for student tutoring and other educational services. Funds from the K-12 Learning Acceleration Grant are then paid directly to the tutor or service provider that a family chooses. Families can pick tutors that meet their needs from a list of approved tutoring providers. There is no out of pocket expense for our families for these services. For more information visit: <https://doe.virginia.gov/k12grants>.

The Virginia Department of Education and your local school division are committed to providing additional reports in the future that give you transparent, actionable data to build the best partnerships possible in educating our Commonwealth's children.

Sincerely,

A handwritten signature in black ink, appearing to read "Lisa Coons".

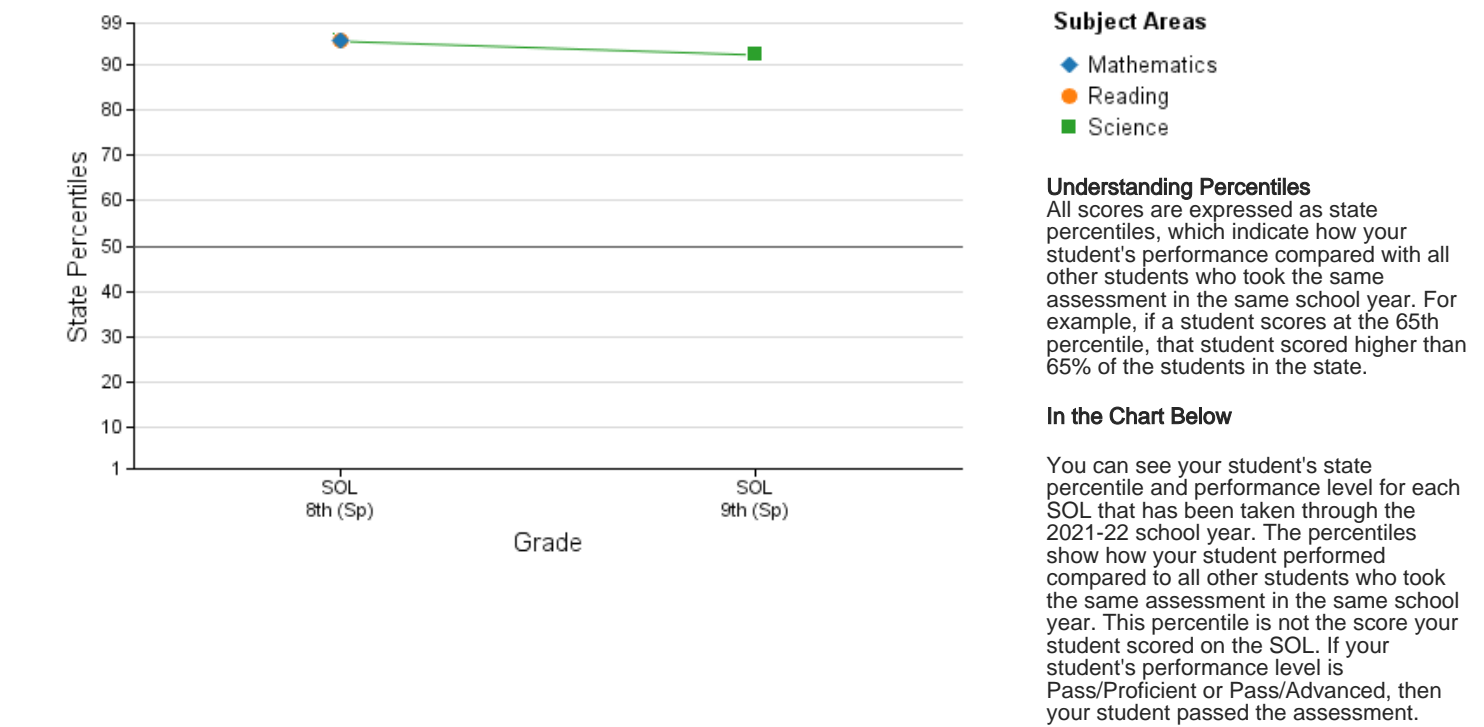

Lisa Coons, Ed.D.

VVAAS Student Assessment Summary for ISHAN S AJWANI 1017629870

As of the 2021-2022 School Year

Based on state percentiles, how has your student performed on state assessments?

Your student's performance on the state tests is represented by the shapes in the chart below. Students take SOL Mathematics and SOL Reading in grades 3-8 and SOL Science in grades 5 and 8. Students also take end-of-course tests for high school level courses.

	SOL 8th (Sp)	SOL 9th (Sp)
Mathematics	95th percentile (Pass/Advanced) EOC Algebra II	
Reading	95th percentile (Pass/Advanced) Reading	
Science	95th percentile (Pass/Advanced) Science	92nd percentile (Pass/Advanced) EOC Biology
